CAREER OVERVIEW

BSIT Web Development student with practical experience in front-end development, interface prototyping, and internal web system projects. Interested in building responsive, user-friendly web applications that combine functional implementation with thoughtful UI/UX design. Seeking an entry-level opportunity to contribute to web development projects while continuing to grow technical skills.

EXPERIENCE & PROJECTS

CIAC Risk Management Information System (RMS) — *UI/UX & Front-End (OJT)*

- Contributed to a web-based Risk Management Information System built with JSX and Supabase.
- Designed screens in Figma and refined the interface and user experience of the system.
- Implemented form validations to keep submitted data accurate and consistent.

MJ Quality Cars - Used Car Sales Website — *UI/UX Designer & Front-End*

- Developed dynamic front-end interfaces using Angular, TypeScript, HTML, and CSS.
- Applied UI/UX principles to improve readability, navigation, and accessibility.
- Implemented SEO best practices so the site ranks on the first page for brand-specific searches.

IPONLY - Gamified Budget Tracker Application — *UI/UX Designer*

- Conceptualized a gamified budget tracking app to boost engagement and financial awareness.
- Created intuitive income and expense tracking interfaces with clear navigation and visual hierarchy.
- Applied interactive UI elements and responsive layouts to improve usability.

Campass - Queue Management Mobile Application — *UI/UX Designer*

- Designed a mobile queue management system using Flutter to streamline service tracking
- Designed intuitive interfaces for real-time monitoring, significantly improving user navigation/flow
- Implemented UI/UX best practices to ensure clarity and accessibility for Android users.
