## PROFESSIONAL SUMMARY

BSIT Web Development student with practical experience in front-end development, interface prototyping, and internal web system projects. Interested in building responsive, user-friendly web applications that combine functional implementation with thoughtful UI/UX design. Seeking an entry-level opportunity to contribute to web development projects while continuing to grow technical skills.

## EXPERIENCE

**On-the-Job Trainee · UI/UX & Front-End (486 Hours)** *June 2026 – October 2026*
*Clark International Airport Corporation (CIAC), Management Information Systems Department*
· Contributed to the Risk Management Information System (RMS), a web system built with JSX and Supabase.
· Designed all RMS screens in Figma and refined the system's interface and user experience.
· Implemented sign-in form validation to keep submitted data accurate and consistent.

## PROJECTS

**Campass – Queue Management Mobile App · UI/UX Designer & Front-End** *March 2026*
· Designed a mobile queue management system using Flutter to streamline service tracking.
· Designed intuitive interfaces for real-time monitoring, improving user navigation and flow.
· Implemented UI/UX best practices to ensure clarity and accessibility for Android users.

**MJ Quality Cars – Used Car Sales Website · UI/UX Designer & Front-End** *December 2025*
· Designed all pages and developed responsive front-end interfaces using Angular, TypeScript, HTML, and CSS.
· Applied UI/UX principles to improve readability, navigation, and accessibility.
· Implemented SEO best practices so the site ranks on the first page for brand-specific searches.

**IPONLY – Gamified Budget Tracker App · UI/UX Designer** *October 2025*
· Conceptualized a gamified budget tracking app to boost engagement and financial awareness.
· Created intuitive income and expense tracking interfaces with clear navigation and visual hierarchy.
· Applied interactive UI elements and responsive layouts to improve usability.
